How did you hear about the service?

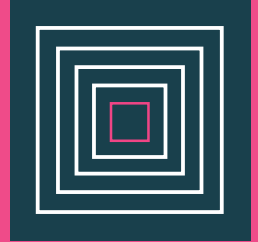

My brother told me about it after seeing posters and information on a website, so suggested I go for it and see how they could help.

What made you decide to use us, is there anything specific that you needed help with?

I'd been with an agency for about a year and not been given any work, so thought I would give Employ Crawley a try. I needed some help finding the right job and improving my CV which Julie was really helpful with.

What were your first impressions?

I was quite happy and excited because I knew I was going to get something out of this experience.

EMPLOY
CRAWLEY

What did you think of the service you received? Was there a particular part of the service that you liked specifically? If so what?

Julie was great, on my first visit, she mentioned vacancies at Gatwick Airport which really appealed to me and me and my lifestyle due to the proximity and the good pay.

Julie was also very supportive and offered help no matter how big or small the query was.

Would you recommend the service to others looking for help? And if so why?

Yes definitely, 100 per cent, the service is fantastic and brilliant.

Thank you!
